cure for Utah the National Educational association for 1898. Great interest in our capital city was manifested by members of the association held in Milwaukee in 1897, but the desirability of having the meeting in the east for 1990, on account of the exposition at Paris, undoubtedly postponed a choice of the west to 1899. From encouraging information that now comes to us, the opportunity for Salt Lake next year appears exceptionally good.

It was resolved at last evening's meeting to endeavor to secure the '99 convention of the N. E. A. for Salt Lake. A discussion of ways and means for conducting a campaign in behalf of the city's claims at the national convention in Washington next month, ensued. Finally Messrs. house.

In connection with the county campaign, several candidates for office are being mentioned. Of course, D. C. Dunbar is going to be in the race for a place succeeding himself, but Frank Harris has a whole lot of friends who want to see him nominated for the position. Frank isn't saying anything concerning the matter, but it is believed if he could get the nomination he would be a strong candidate.

Sheriff Lewis has a lot of friends who will work to see him get the comination for a second term. John B. Cummock is out again and Chief Pratt is understood to favor his candidacy. A

mock is out again and Chief Pratt is understood to favor his candidacy. A new Richmond is in the field in the person of George Raleigh, who has a whole lot of people working on the quiet for him. George has a good record and is a very competent officer, and will make a good race. Joe Raleigh declares he is not a candidate, as has been stated. That is a mistake. Possibly his name has been confounded with that of George Raleigh. Whether Peter Condie will again bob up for the Republican nomination is

Whether Peter Condie will again bob up for the Republican nomination is not stated. Albert Reiser, the oracle, has not yet spoken on this matter. If there is a fighting chance, Joe Smith will no doubt run once more, for with all the work he has done, he is entitled to the nomination some time, and should the belief prevail that the party will get beaten, they may pay Joe's debt by giving him the nomination.

Thomas Hull will doubtless be in the race for clerk, but if Condie harpens to be the candidate for sheriff, Hull will have a hard row, as both of them are from the same section of the city.

Dennis Elchnor is mentioned as a candidate for county attorney. Although Dennis is not a silver Republican, there are a whole lot of admiring friends in the party who would like to see him recompensed for the throwdown the administration has given him. However, Dennis' chances for capturing a convention are not very brilliant.

That the McKinley wing of the party That the McKinley wing of the party will nominate a ticket is generally believed. That is to say, a state ticket. This would have a candidate for congress at its head. Who that man will be is now a problem. Before General John Lu Taylor and his better half had this difficulty, he was the man on whom the honor should have fallen, but with that against him, he is out of the race. No matter whether he was discharged or not, his enemies would use domestic difficulties against him, and would make matters so unpleasant and would make matters so unpleasant for him he could not stay in the race with any hope of success. It is one of the misfortunes which overtake great men that sometimes they get before the public without being responsible

Who would be selected as the can-didate for congress in the event a Me-Kinley ticket is nominated is therefore a matter to be settled. Jacob J. Greenea matter to be settled. Jacob J. Greenewald, who was a prominent factor in
the obtaining of the McKinley vote in
this state, has been mentioned frequently, but he is reported as having
said he did not want the place; that
it did not suit him, not on account of
the hours of labor, but by reason of
the small salary paid for the services.
John E. Booth, of Prove, was the man
who nearly defeated Lafayette Holbrook for the Lomination in the Ogden
convention, and he may come up again
for the place. It is argued in his behalf that if nominated and elected, he
would do more to advertise this state
than anything else which could happen
in twenty million years. One thing is
certain, if he succeeded in getting the in twenty million years. One thing is certain, if he succeeded in getting the floor, he would make himself heard.

The McKinley wing of the party has lost several feathers during the sum-mer and there seems to be no one to take the initiative. Senator Brown has been sat on so unmercifully that it is doubtful whether he wants any more in his or not. His following do not seem to enthuse as much as they might, but then there is the postmuster and the marshal, who perhaps may be counted on with John Henry Smith, George Smith and a few others, including the postmaster at Provo, to call a conven-tion, and if delegates are lacking, run the machine themselves. But it's early

The Silver Republican committee is working on a still hunt plan during the hot days, not much activity being dis-played. Chairman Joe Lippman re-turns the word "nothing" to daily questions asked him as to what is new in the campaign. Chairman Joe is a sly dog and maybe laying a whole lot of wires for aught the public knows and his long silence means that considerable noise will be made when he does

speak.

The question as to who will be the The question as to who will be the Democratic candidate for congress this fall is beginning to attract a great deal of attention and consideration at the hands of the members of the party. If Congressman King is going to be a nands of the members of the party, in Congressman King is going to be a candidate for the senate, as a great many believe, it would logically place him out of the race for the lower house. If he is not going to run for the senate, then his position is easily defined, for he will be in the race for a re-nomination. State Senator Ridgout is an avowed candidate and has a good following, while down Mercur way and in several while down Mercur way and in several of the mining camps State Senator William G. Nebeker is mentioned favorably. Besides this, he has several followers here in the city who would like to see him get the nomination. Hon, Frank Nebeker, prosecuting attorney of Cache county, has been suggested for the place by friends from the north, who believe that one member of congress should come from that section of country, and down in the lower countries State Senator Snow is alluded to as a possibility. as a possibility.

as a possibility.

As time progresses the position of these candidates will become better and more clearly defined than at present, when everything is at a standstill. Exsime senator Smoot, of Utah county, has been suggested for the lower house several times of late, but when he was in the city last he declared he was in no sense a candidate. However, should his chances be such that a nomination is possible, it is believed there will be no difficulty in getting him in the race.

The senatorship battle is being discussed in a great many quarters. Of course everybody knows who the Republican-Populist candidate will be. It is no less a person than Hon, Frank J. Cannon.

But the Democrats have much timber. There is Hon. A. W. McCune, Hon. Aquila Nebeker, possibly Hon. William H. King among the leaders. Mr. Nebeker is not an aggressive candidate at this time, although he has a good following. Undoubtedly there will not be as long a fight this coming winter as there was when Senator Rawlins was elected. The candidate will be decided in caucus. It is believed the Republicans will have more members than during the other session. Of course the Democrats will have the legislature by a good working majority. They have the upper house right, with nine members to start with and as a matter of course will elect three or four more at least.

least.

It is believed within the next month the matter of the senatorship will also clear up; that the candidacles of the several men mentioned, and perhaps several others, will be more clearly defined and that partisans will have a chance to express their preferences without reserve.

MUSTERING OFFICER FOR THE BATTERY ARRIVES.

Will Hold a Consultation With Governor Wells This Morning-Still Recruiting Engineers-The Pearson Sword Fund.

Lieutenant Tittebrandt, who has been designated as mustering officer for the additional battery which is to be recruited from this state, arrived in the city from Duchesne yesterday and is registered at the Knutsford. He will have a conference with the governor this morning on the subject of recruiting.

The governor received no new information yesterday concerning the battery and had nothing to give out on the subject. Perhaps there will be some important announcements made during the course of the day.

Recruiting for the regiment of engineers continues with good success, and it is believed enlisting will begin this afternoon. Thus far nothing but applications have been received and no enlistments have been made.
